

WORKING AT

Spera Law Firm is a young, dynamic and no-nonsense law firm with its registered office in the city centre of Heerlen. The firm aims to provide a high standard of legal services and to represent its clients in both the consultancy phase as well as in the conflict phase. In order to permanently maintain legally high standards of service provision, all the members of our staff at Spera Law Firm annually take extension courses in their respective subareas. Furthermore, the company pays a lot of attention to professional skills by closely monitoring developments within the law.

Candidates with a masterâ€™s degree from university and with high test results, who also have civil law or tax law for their main subjects are expressly invited to apply. You are requested to send your letter of application along with your CV to Mrs N.G.R. Ritzen. All applications will obviously be treated in confidence.
